STREAMING REMINDER

BFNations v1.0

PRESENTATION

What is the purpose of this document

- The goal of this document is to make sure to have everything in place before your stream starts. This document is not about the initial process of the installation, it is intended for already existing members of the BFN stream team.

- This document will evolve when new stream implementations will be made

- Download the images for your match from the BFNations google drive

- Place the corresponding images in the right scenes in obs (gameplay, countdown, etc)

- Open snaz

- Open VLC

- Open Excel

- Run ATHK score script

- Update Stream Title

- Enter server before match

- Open your webcam

- Open your replay buffer

- Make sure the audio is working properly

- Add commentators in the the Discord voice chat

- Follow the routine sheet for the scenes transitions before/during the match

- Mention user when follow/sub
